No. HRR. 024 / 2560

Environmental Management Policy

Aeroflex Co., Ltd. engages in the manufacturing of closed cell elastomeric thermal insulation and other related products, and is aware of the importance of the environment for the mutual benefit of everyone in the organization, including social responsibility to the community and stakeholders. The company is committed to practice according to the following guideline:

1. To comply with the laws & regulations, international standard and the other requirements.
2. Continuous improvement and development to the context and environmental objectives of the company's products, services and activities.
3. Periodically review the objectives and the policies.
4. Committed to protect the environment to mitigate the effects of global climate change by reducing the greenhouse gas emissions, including pollution prevention from all the company's activities.
5. Campaign and promote effective utilization of resources, reduce the amount of waste from the production process, and control over all the impact throughout the product life cycle perspective, and to achieve business, social and environmental sustainability.
6. Enhance knowledge to create awareness and responsibility by taking into account the interests of all stakeholders.

The company has cancelled the announcement No. HRR. 010/2560 on occupational health, safety and environment system, and replace with this policy instead.
